

Discovery Education Science Techbook

Price Report

Web-Based Applications and Sites

Discovery Education offers two types of contracts: statewide and district-level. TEC has compared “the actual price paid” for Discovery Education Science Techbook contracts for varying license durations and quantities purchased.

Statewide contract	Lowest Price \$38 (8-year)	Median Price \$38 (6-year)	Highest Price \$48 (6-year)
District-level contract	Lowest Price \$17 (6-year)	Median Price \$48 (6-year)	Highest Price \$48 (6-year)

See What Other Districts Paid

District Location	Grade level	Per license price	License duration	License type
Texas	K-5	\$48	8-year	Statewide
Oregon	K-5	\$45	6-year	Statewide
North Carolina	K-5	\$38	6-year	Statewide
Small Northeast District	K-5	\$48	6-year	District-level
Medium Southern Districts	K-5	\$17	6-year	District-level

Key Findings

Texas statewide contract is the best deal we were able to identified. With an 8-year long contract, Texas is getting a 20% lower price per year compared to the average 6-year statewide contracts per student.

District-level contracts: We found that districts are getting prices that are 12-18% more than the state-level contracts that we have looked at. They are also not always signing on for license terms that extend as long as 6- and 8-years, but are limited to 3-year terms.
